 17 Helms Street Birchleigh
Kempton Park

PROFILE

Motivated graduate in Information Technology with a strong academic record, skilled in business process modelling and digital transformation. Adept at problem-solving and equipped with strong communication skills, actively seeking opportunities to apply technical skills and contribute effectively in a dynamic professional environment. I am eager to apply technical skills and passionate about leveraging technology to stay updated with industry advancements.

EXPERIENCE

Experience

Digital associate- Cyber Security Intern
CAPACITI | May 2025- Present

- Actively involved in individual and team-based projects with a focus on continuous learning and professional development
- Supporting cybersecurity initiatives including risk assessments, log analysis, and awareness of security operations and incident response
- Participated in an AI-focused capstone project, applying large language models (LLMs) to enhance accessibility through voice-to-text transformation

PROJECTS

Repair Management Software Implementation (Final Year POE)

- Proposed and designed a repair management system to streamline work orders and automate tracking.
- Optimized workflows using business process modeling, reducing errors and improving efficiency.
- Led project planning and coordinated with stakeholders for system integration.
